ABSTRACT

Data presented in this document provide a comparison of the students served by major compensatory education programs and illustrate the degree to which these programs provide services to the same students. Included are descriptions of the programs surveyed and a listing of elementary, secondary, and high school campuses on which the programs operate. Numerous tables in the appendices provide the following: (1) an unduplicated count which shows each student only once in the program or combination of programs in which he participates; and (2) a duplicated count which shows each student in all the combinations in which he participates. I

INTRODUCTION

The Austin Independent School District began in 1976 to examine closely the ways in which programs overlap in their activities. A major informational input into this examination has been an annual comparison of the students served by major compensatory programs to determine the degree to which these programs are providing services to the same students. The Overlap Study is prepared as a planning resource for persons developing applications for state and federal assistance.

II

DEFINITIONS OF PROGRAMS

The programs included in this study are defined below. The abbreviations associated with each program and each student group within a program are the ones which appear on the tables in Appendix A and B.

5

Abbreviation	Program or Student Group	Definition
AISD-SUP	Local Supplemental Reading Courses	These students have been enrolled during the fall and/or winter quarter in any of the non-required reading courses at the junior high or senior high level. At the junior high level, 1407 and 1408 were included. At the senior high level, the following courses were included: 1315, 1316, 1317, and 1321.
ESAA-P	ESAA Written Composition Pilot Program	One classroom from each grade, K-5, participates on six campuses - total of 36 classrooms. Classrooms particpate on a voluntary basis.
L/S-BIL	Local/State Bilingual Program	Any student in the Austin Independent School District who meets the following criteria is served by the Local/State Bilingual Program: a) Enrolled in grades K-5. b) Responded "Spanish" to any one of the three Survey of Home Languages questions. c) Scored at or below the 50th percentile in reading on the CAT (this is required in grades 2-5 only; K and 1 students need meet only criteria a) and b) above).
OCR-LESA	LESA by Office for Civil Rights Criteria	Current Office for Civil Rights guidelines require that in order for a student to be considered as limited English speaking ability (LESA), he/she must: a) have a non-English language in his/her background and b) score below level 5 ("Proficient in English") on an approved language proficiency test. The Austin Independent School District has chosen the Primary Acquistion of Language Oral Language Dominance/Proficiency Measure (PAL) and the Comprehensive English Language Test (CELT) as its measures of language proficiency

Abbreviation	Program or Student Group	Definition
		A student in grades K-6 whose PAL raw score is below 85 is considered to be LESA. A student in grades 7-12 whose CELT raw score is below 29 is considered to be LESA.
SCE-M	State Compensatory Education Program - Math	This category includes those sixth-grade students with a spring, 1978, fifth-grade California Achivement Test Math Total percentile score of 45 or below.
SCE-R	State Compensatory Education Program - Reading	This category includes those sixth-grade students with a spring, 1978, fifth-grade California Achievement Test Reading Total percentile score of 40 or below.
SPEC-ED	Special Education	A special education student is a student, ages 3-21 years, who has a handicap or impairment which prevents him from learning or benefitting from regular educational services. The identification of this handicap or impairment is determined from individual comprehensive assessments of the following areas: language and communication, physical emotional/behavioral, sociological, intellectual and educational functioning. The decision to place a student into Special Education must be made from these assessments as stipulated by the Policies and Administrative Procedures for the Education of Handicapped Students and can only be made by the Admissions, Review, and Dismissal (ARD) Committee, composed of a school administrator, classroom teacher, appraisal personnel, a special education teacher or supervisor, the parent, student, if appropriate, and other school personnel as needed.
TITLE-1E	Title I Eligible Students	These students have been judged by their teachers to be eligible for Title I services on the basis of educational criteria, K-5 in 25 schools. These criteria correspond to achievement at or below the 40th percentile in reading.

Abbreviation	Program or Student Group	Definition
TITLE-1S	Title I Students Served	These students were served by a Title I reading teacher and/or instructional aide during the first nine-week period of 1978-1979.
TITLE-1P	Title I Pre-kindergarten Students	These students are enrolled in the Title I Program at the pre-kindergarten level.
1MIG-S	One-Year Migrant Students Served by a Migrant Teacher	These are "currently" migratory students whose parents or guardian is a migratory agricultural worker or migratory fisherman, and who have within the last 12 months moved from one school district to another in order to find seasonal work, and who were served by a Migrant teacher, K-12, prior to November 20, 1978.
5MIG-S	Five-Year Migrant Students Served by a Migrant Teacher	These are "formerly" migratory students who have not migrated during the last year, but who did migrate within the last five years, and who were served by a Migrant teacher, K-12, prior to November 20, 1978.
1MIG-N	One-Year Migrant Students Not Served by a Migrant Teacher	These are "currently" migratory students whose parents or guardian is a migratory agricultural worker or migratory fisherman, and who have within the last 12 months moved from one school district to another in order to find seasonal work, and who were not served by a Migrant teacher, K-12, prior to November 20, 1978.
5MIG-N	Five-Year Migrant Students Not Served by a Migrant Teacher	These are "formerly" migratory students who have not migrated during the last year, but who did migrate within the last five years, and who were not served by a Migrant teacher, K-12, prior to November 20, 1978.
1MIG-SPK	Pre-Kindergarten One-Year Migrant Students	These are "currently" migratory students whose parents or guardian is a migratory agricultural worker or migratory fisherman, and who have within the last 12 months moved from one school district to another in order to find seasonal work, and who

Abbreviation	Program or Student Group	Definition
		were served by a Migrant teacher, pre-kindergarten, prior to November 20, 1978.
5MIG-SPK	Pre-Kindergarten Five-Year Migrant Students	These are "formerly" migratory students who have not migrated during the last year, but who did migrate within the last five years, and who were served by a Migrant teacher, pre-kindergarten, prior to November 20, 1978.
TITLE-7	Title VII Bilingual Program	Any student in the Austin Independent School District who meets the following criteria is served by the Title VII Bilingual Program: a) Enrolled in grades K-5 in one of the eight Title VII funded schools and b) Enrolled in one of the classrooms currently providing bilingual instructional activities.

III

PROCEDURES

In August, 1978, the Office of Research and Evaluation collected classroom rosters from the 25 elementary K-5 schools in the Title I Program and from the eight sixth-grade schools. Secondary 7-12 rosters were not collected.

For grades 7-12, four groups of students were identified. Each group and the date on which that group's membership was recorded are shown in Figure 1.

Group	Date Membership Roster Was Recorded
Special Education	January 15, 1979
Local Supplemental Reading Courses	October 25, 1978
Migrant Students	December 15, 1978
LESA by OCR Criteria	December 15, 1978

Figure 1: SECONDARY STUDENT GROUPS - DATE OF MEMBERSHIP RECORDS.

For Grades K-6, eight groups of students were identified. Figure 2 shows these groups and the date on which membership was recorded.

Group	Date Membership Roster Was Recorded
Title I Eligible, Served Pre-Kindergarten	October 25, 1978
ESAA Written Composition Pilot Program	December 1, 1978
State Compensatory Education Program	September 15, 1978
LESA by OCR Criteria	December 15, 1978
Title VII Bilingual Program	October 25, 1978
Local/State Bilingual Program	December 15, 1978
Migrant Students	December 15, 1978
Special Education	January 15, 1979

Figure 2: ELEMENTARY STUDENT GROUPS - DATE OF MEMBERSHIP RECORDS.

At the elementary level, the problem of student mobility arose. Membership rosters of two groups may have included the same student but at different campuses as a result of his transferring between the roster dates of the two program. Thus, a decision was made to use the Title I Program's nine-week report file as the master enrollment roster to which each program's membership was compared.

This file was updated by the 25 Title I schools as of October 25, 1978. Therefore, a student's school and grade as on this file determined his campus/grade location for this study. Also, a student who appeared in a project membership group but not on this master nine-week report file was assumed to have transferred into the school after the end of the first nine weeks and, therefore, was not included in this study. The only exception to this was made for Migrant students who were on the Migrant files but not on the Title I reports. These students were added.

The Title I nine-week report file was used as the basis for the 25 Title I schools only. In other schools, program rosters were not aversely affected by mobility and adjustments were not made.

Count of Students

The basic element necessary for the merging of each project's membership file with those of the other projects is the seven digit student identification number. All merging was accomplished by computer using this number. A certain error rate was incumbent in the use of these numbers; however, this error should have been sufficently small to have had no significant effect on the results of this study.

The students counted in each program and combination of programs are summarized in two ways. An unduplicated count shows each student only once in the program or combination of programs in which he participants. The duplicated count, however, shows each student in all the combinations in which he participates. Figure 3 presents an example to help clarify the distinction between duplicated and unduplicated counts. In this example, the student is a part of four programs. This results in his being classified in 15 program combinations in the duplicated count. However, he is counted only once in the unduplicated count - in the one combination of programs which uniquely describes that student.

Details about the Merging of Files

In the course of merging the rosters of the various programs, several problems were encountered for which the following decisions were made.

1. Students enrolled in Title I schools but not included on the Title I roster were not included in the study.

2. All special education students enrolled in the sixth grade were considered eligible for SCE reading and SCE math.

3. All LESA students in Title I schools were considered as Title I eligible.

4. All special education students in Title I schools were considered Title I eligible.

5. When a conflict arose between the special education roster and the Secondary Supplemental Reading Course Roster, the name, school, and grade appearing on the Secondary Supplemental Reading Roster were used.

6. Migrant students enrolled in Title I schools but not on the Title I roster were included in the study.

7. Migrant students who had withdrawn from Title I schools prior to October 25, 1978, were re-added to the Title I roster for this study.

DISCUSSION AND CONCLUSIONS

This chapter will not attempt to discuss completely all of the implications arising from the overlap study. Again, this document is designed as a needs assessment reference for program planners. However, some of the most obvious generalizations have been summarized below.

1. The district's compensatory education programs do overlap in a pattern which is very complex.
2. Many students are counted on the roles of numerous programs at the same time. (Example: Fifth grader who is served by Title I, Title VII, Local/State Bilingual, Migrant, and Special Education).
3. Within some individual schools, several programs complete for the time of students as most projects concentrate on the same target populations.
4. Title I's major overlap is with the bilingual programs where about one of every three students served by Title I are also served by a bilingual program.
5. Although efforts have been made to eliminate the overlap of Title I with special education and migrant served, 124 special education and 40 migrant students are served by both.
6. All special education and OCR-LESA students and most migrant students are SCE eligible at the sixth grade.
7. Only 86 out of 1,318 OCR-LESA students are not served by a compensatory program.
8. About half of the Title VII Program students are also Local/State Bilingual Program students.
9. There were 292 out of 939 migrant K-12 students who were not served by any program as of December, 1978.

Obviously, the issue of coordinating the delivery of instruction by various compensatory programs is a valid one. The data reported here should provide a basis for identifying the areas of greatest need.

In order to ease the task of making meaning out of the thousands of numbers in Appendix A and B, the major overlaps of the compensatory programs are summarized on the following pages.
